

# Take Motorcyclists off the Endangered Species list

**In 2008, 13 motorcyclists were killed on North Dakota roadways. This number has tripled since 2006. The ND Motorcycle Safety program website offers these important tips.**

- 1.** Get trained and licensed. Go to [www.ndmsp.com](http://www.ndmsp.com) and sign up for a rider course.
- 2.** Wear protective gear. All the gear, all the time. This includes a helmet manufactured to the standards set by the Department of Transportation.
- 3.** Never drink and drive. There is little forgiveness for driving errors on a cycle.
- 4.** Ride within your own skill limits.
- 5.** Be a lifelong learner by taking a refresher rider course.
